

Extraterrestrial Aliens and Reptilian Gods in the Quran, Pt VI

by Amir Fatir

This is the sixth in a series that reports on the Quran's explanation of extraterrestrial gods' interaction with humans in the not too distant past.

All the ancient records discuss wars between the various gods. Prior to and after man's creation to be the god's slave, the various gods (aliens) fought among themselves, here on earth and in outer space. Apparently, the asteroid belt was a theater of engagement for major battle among the alien "gods."

"And there was war in heaven: Michael and his angels fought against the dragon; and the dragon fought and his angels. And prevailed not; neither was their place found any more in heaven.

And the great dragon was cast out, that old serpent, called the Devil, and Satan, which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him."--

Revelation 12:7-9

"Say: Whoever was an enemy to Gabriel for surely he brought it down to your heart by Allah's command, verifying that which is before it and a guidance and good news for the mu'miniyn...

Whoever was an enemy to Allah and His angels and messengers and Gabriel and Michael, then surely Allah is an enemy to the blasphemous."-- Quran 2:97-98
There was a great celestial battle, a real Star Wars, that involved some heavyweight arch-angels (Satan or Set, Michael and

The "clear flame" refers to laser beam weapon systems employed against those Anunnaki enemies who attempted to spy upon the alien base in the Asteroid Belt.

The Towers refer to launch towers and gun towers. The term "rejected devil" (rajim) actually means "stoned" or "struck by missiles."

"Surely we have decorated the lower Asteroid Belt with a decoration, the meteorites. And a protection against every rebellious Shaytaan. They cannot listen to the exalted assembly and they are reproached from every side, driven off. And for them is a perpetual chastisement. Except him who snatched away but once, then there followed him a brightly shining flame."-- Quran 37: 6-10

From the above passage we learn that the Asteroid Belt is but the lower one. There are six more further out ("higher") in deep space. The meteors that form the Asteroid Belt also protect the angelic base there.

Jinn spies are driven off although someone once succeeded in eavesdropping on a meeting of the Anunnaki chiefs. Some type of "photon torpedo" automatically attacks spies who approach the Anunnaki military base without clearance.

"And certainly We have adorned the lower Asteroid Belt with lamps and made them missiles for the Shayateen, and we have prepared for them the chastisement of burning."-- Quran 67:5

The Anunnaki space base is equipped with "lamps" that fire laser

Gabriel). Apparently, even Allah was a participant and is capable of having "enemies."

Now if the Revelation's "heaven" is also derived from Sama, then we can identify the location of the battle, the asteroid belt.

"And we made the asteroid belt a guarded canopy; yet they turn away from its signs." -- Quran – 21:32

The alien base on the asteroid belt was guarded. In Sumerian texts, the Anunnaki who performed security functions were called Gan. The Jaan (Jinn) of Quran 15:27 is the same as Gan. "Who made the Earth a resting-place for you and the Asteroid Belt a structure, and He sent down water from the Asteroid Belt and brought forth fruits for your sustenance. So do not set up rivals for Allah and you know."-- Quran 2:22

The planet Earth is a kind of stopover point. The Asteroid Belt was made a base or structure for the Anunnaki (Jinn). See Quran 40:64

"And certainly We made Strongholds, Towers in the Asteroid Belt and We have beautified it to the beholders. And we guard it against every rejected Shaytaan, except he who steals a hearing. So there follows him a clear flame."-- Quran 15:16-18

or photon missiles at the enemy.

And we sought to reach the Asteroid Belt, but we found it filled with strong guards and flames And we (Jinn) used to sit in some of the bases thereof to listen. But whoever tries to listen now finds a flame lying in wait for them.-- Quran 72:7-9 The Jinn tried to fly to the base in the Asteroid Belt, but "strong guards" with weapons ("flames") prevented them. The existence of bases (plural) in the Belt is specifically stated. The Jinn tried to "bug" the Anunnaki military bases, but some type of laser weapon got activated and ambushed them.

"And He it is who is a god in the Asteroid Belt and a god in the Earth ...And blessed is He whose is the kingdom of the Asteroid Belts and the Earth and all that is between them." -- Quran 43:84-85 To be continued.....

After teaching himself to read Arabic in 1976 he was surprised to find that many passages of the Quran corroborated the theories exposed by scholars who held that earth had once been colonized by ancient astronauts.
